Three Planes Crash Three Airmen Die

PRAHA, Czechoslovakia, Aug. 9.—Three men were killed today in the crash of three military planes in the vicinity of Prague.

Recovery Sign

Here is the badge, in red and blue, reproduced in shop window, on fixtures, on the labels of goods, on letterheads in the United States. It means that the proprietors of the factory or shop displaying the sign, or the makers of goods bearing it are co-operating with the National Recovery Administration by adopting the working conditions which the administration believes necessary for recovery. The movement has now spread to Canada and it is expected some action will be taken at Ottawa at an early date.

WE DO OUR PART
TEACH CANADIAN HISTORY: DEMAND OF NATIVE SONS

OTTAWA, Aug. 9.—A resolution that Canadian history and geography be made major subjects in elementary and secondary schools until senior matriculation was unanimously carried at the 12th annual convention of the Native Sons of Canada Tuesday.

Delegates from all parts of Canada supported the resolution, claiming that the study of Canadian history and geography would help to build a sense of national unity and loyalty.

MINERS VOTE WORK RETURN

UNIONTOWN, Pa., Aug. 9.—An appeal from President Roosevelt carried to the turbulent strike area, Tuesday, was rejected by the Pennsylvania soft coal workers in the back-to-the-mines movement.

First Load New Wheat Is Shipped

MOOSE JAW, Sask., Aug. 9.—The first load of new crop hard wheat was delivered to a local mail car yesterday morning by James Smith, of Bellevue. It weighed 1,000 bushels and was valued at \$1,000.

FOUR-DAY HOLIDAY MARKS INDIAN'S COMING OF AGE

Carried to Throne By Priests Magician's Boy Almost Faints BY GORDON SINCLAIR

MADURA, South India, Aug. 9.—The wife of M. K. Gandhi was sentenced today to six months in prison for defying a court order to leave the country.

Dog Teams In Far North Out Of Style

NEW YORK, Aug. 9.—Dog teams are no longer used for pulling sleds in the frozen north, said Victor Ross today, to be replaced by motor sleds.

Ruth Nichols To Make Trip At New Mark

LOS ANGELES, Aug. 9.—Ruth Nichols, New York aviator, left for New York today for a flight to New York.

Racing Stable Sold

SARATOGA SPRINGS, N.Y., Aug. 9.—The entire stable of Victor Ross, a local horse owner, was sold today for \$25,000.

TRADES LEADERS PLAN TO SURVEY RESULTS IN U.S.

Big Business Associations Readily React to Campaign Started By Garment Makers for National Action.

MONTREAL, Aug. 9.—Canadian business associations, including the Canadian Chamber of Commerce, the Canadian Manufacturers' Association and the Montreal Board of Trade, moved Tuesday to survey the direct and indirect results of the United States National Recovery Act.

EDMONTONIANS WATCHING BOLD RECOVERY ACT

City Merchants Eager to See What Results Will Be in U.S.

While Edmonton businessmen are inclined to wait a while before expressing an opinion on the new National Recovery Act, some are going into effect in the United States, they recognize it as a bold attempt to improve conditions in that way and are in results with keen interest.

PEACE RIVER MAN KILLED IN ACCIDENT

William G. Urquhart Meets Death As Car Overturns—Two Escape

PEACE RIVER, Aug. 9.—A tragic accident took place during Tuesday night when William G. Urquhart, 38, met death with starting suddenness.

BALBO PLANES HOP PORTUGAL FROM AZORES

NEW YORK, Aug. 9.—Italian air forces today left the Azores for Portugal, where they were to land and then hop to the mainland.

Race Entries

First Race: 10:00 a.m. Second Race: 10:30 a.m. Third Race: 11:00 a.m. Fourth Race: 11:30 a.m. Fifth Race: 12:00 p.m. Sixth Race: 12:30 p.m. Seventh Race: 1:00 p.m. Eighth Race: 1:30 p.m. Ninth Race: 2:00 p.m. Tenth Race: 2:30 p.m.

RECORD WILKIE CROWD GREET LIBERAL CHIEF

WILKIE, Sask., Aug. 9.—Hon. L. M. Macdonald, Liberal leader, ran into a barrage of questions here last night when he returned to the city.

Amiable Queries Fly Thick and Fast As Speaker Proceeds

WILKIE, Sask., Aug. 9.—Hon. L. M. Macdonald, Liberal leader, ran into a barrage of questions here last night when he returned to the city.

Ruth Nichols To Make Trip At New Mark

LOS ANGELES, Aug. 9.—Ruth Nichols, New York aviator, left for New York today for a flight to New York.

Racing Stable Sold

SARATOGA SPRINGS, N.Y., Aug. 9.—The entire stable of Victor Ross, a local horse owner, was sold today for \$25,000.

Sen. Robertson's Condition Better

OTTAWA, Aug. 9.—Senator Gordon D. Robertson, who suffered a paralytic stroke at his home here Wednesday last week, passed away last night, it was reported today. His condition was said to be further improved.

WHEAT STEFFEN'S WAGE DEMANDS

RESISTANCE OF BASIC RATES NOW REAL ISSUE

Conciliation Meetings End in Failure—Shop Trades Ask That Approximately 43 Per Cent Cuts Be Eliminated.

MONTREAL, Aug. 9.—Not only do the shop trades division of railroad labor protest the second 10 per cent wage reduction imposed by the Canadian Pacific and Canadian National railroads "but they also demand the shop to the basic rates," said Robert Talbot, president of the shop trades, division No. 4 of the American Federation of Labor, Tuesday, in announcing conciliation meetings with railroad representatives had concluded.

The shop trades and the roads arrived at the conclusion they were unable to compromise their differences, following two days' conference and the refusal of the men began to return home.

The next move was considered up to the railways and it was believed a board of conciliation would be set up.

The first 10 per cent cut was the initial derogation from the basic rates, explained Talbot. The negotiations just concluded were as a result of opposition to a second 10 per cent cut. Talbot said he was sure that his organization was "equally and substantially" opposed to both reductions, and that taking into consideration salary cuts, reduced hours and layoffs, the men of his division had been forced to give up 43 per cent of their earnings.

BALLOTTING PROCEEDS

Other sections of railroad labor also continued their fight against salary reduction. The running trades, including the men for submitting a ballot to their membership at large to decide the result of a referendum to accept or reject the proposed cuts.

Brotherhoods of railway clerks, freight handlers, steam engine and station employees appointed W. C. Cannon, Montreal, as their representative on the board which has already been re-elected.

The Canadian Brotherhood of Railway Employees, which has been placed in the hands of printers the result of a strike, refused to be distributed to their membership of 25,000 from coast to coast.

The union executive refused to state whether a fixed rate for the maintenance of the railroads had been settled.

In other divisions the unions went ahead with their own negotiations. Failing to reach an agreement with the Canadian National, they placed in the hands of printers the result of a strike, refused to be distributed to their membership of 25,000 from coast to coast.

The union executive refused to state whether a fixed rate for the maintenance of the railroads had been settled.

Feathery! Covered With Dots

Despite Difficulties Plan Advocated By Port Hope Economist

BANFF, Alta., Aug. 9.—Collective registration of production is seen as the most likely method of restoring Canada's wheat prices by Sirven Cartwright, Port Hope, Ont., economist and student of the world wheat market in a paper prepared for the conference of the Institute of Pacific Relations, opening here next week.

But the difficulties are enormous, he finds, and furthermore, restriction involves international action which may never be secured although the final outcome of the London wheat conference has not yet been decided.

"Without entering the over-production and under-consumption controversy," says the paper, "there obviously exists an excess of supply over effective demand, and the weakness of the agricultural position has never been able to retard his production to the situation."

The moralistic horror expressed at the principle of curtailing food supplies is merely the vestigial remnant of the economy of scarcity. The process is merely the admission of the farmer to a right which industry has long possessed."

Mr. Hutchings said he would recommend to board of trade officials formation of a body to study the American act. "I feel, however, the whole National Recovery act is experimental, the action of the President of the United States is without precedent. I would not care to advise similar action for Canada because of its experimental nature."

John Burns, head of one of the largest meat packing concerns in Western Canada, believed something along the lines of the United States act had to be accomplished in Canada.

Commercial salt production during May advanced to 13,742 tons, or 15 per cent, 15,608 tons were produced.

Rebels and Secret Police Terrorizers

NEA

If men with shortguns rode through the streets of Edmonton shooting down their political enemies, if machine guns were mounted at the parliament buildings and the Premier dared venture forth only in an armored automobile, if frequent "bomb" explosions shook Jasper avenue, if jails were filled with political prisoners.

If all this happened in Edmonton today it would be comparable to the revolt that has been going on in Havana where rebellious groups are seeking to overthrow President Gerardo Machado, Cuba's iron-handed dictator.

Such are conditions in the revolution in Latin republic that now appear to be leading to a duplicate intervention.

Machado, a soldier risen to the presidency, is a dictator with few equals, having the executive, legislative and judicial branches of the government in his hand. Cuba's Congress began to rise, but he controls the supreme court and the army and navy.

A MAN OF ACTION

Marital law, military organization and a secret police organization that has been set up to control those who seek to overthrow him have been used to his advantage.

The strong virile man of past 40, Machado's entire life has been a struggle for power.

His father, a Cuban, was a soldier, and he himself followed by the Spanish-American war and the island revolution.

A business career followed by the war, Machado was for a long time president of the Cuban subsidiary of the Electric Road & Street Company.

Following political activity, he was friendly to Wall Street bankers, and he was a member of the charge now that he has played the game for those interests.

Many Slain in Law of Flight at His Order

NEA

It is now in Havana, openly organizing Cuban revolutionaries and attempting to finance new anti-Machado operations.

But the current terrorist revolt against Machado's rule apparently has nothing to do with Machado's revolution. It is 20 years as a republic, has never seen anything of the kind.

Terrorism has been met with terrorism in this unique outbreak, waged mostly by students and young intellectuals who brand Machado a tyrant.

On one side the "ABC" secret terrorist organization that has organized the methods of gangsters in the law of flight.

On the other side are Machado's strong armed and equally ruthless secret police. Murder has followed murder in a series of spectacular killings.

THE LAW OF FLIGHT

Travel was discontinued at the residence of the Cuban Senate and political life of Machado, and Captain Miguel Casas, former head of the secret police, both were slain on the streets of Havana.

Many members, or suspected members, of the "ABC" secret police have been slain by the secret police in equally ruthless manner. Often, these killings have been done on the ground that the victims were traitors to the revolution.

The evidence in many cases is not convincing. In fact, the committee of 40 official assassinations.

Police have also defended killings on the ground that the law of flight was being used to escape from an officer to shoot an escaping prisoner.

Many prisoners have been released, told to flee and then shot down as they flee.

Bombing has been common, in the streets, in the homes, and in the property. Great numbers of politicians, lawyers, and business men have been killed.

President Machado, whose life has been threatened many times, has been hiding in

"HITCHED!"

The new Canadian loan placed in London
is represented by British financial
papers to be a logical reversal of the declara-
tion made there last week for closer financial
relationship and the stabilization of
exchanges among the Empire nations.

One paper referred to the loan as an "im-
plied undertaking on the part of Premier
Bennett" to maintain the Canadian dollar at
about its present rate against the pound,
even in case of further depreciation of the
U. S. dollar.

Which may be taken as being another
way of saying that the Canadian dollar
has after all been "hitched" to the British
pound. The inference is strengthened by
the readiness with which British investors
took up the bonds. They would hardly
have done that so quickly without some
assurance as to how many dollars they will
get to put to the pound when the bonds fall
due.

THE IMMIGRATION QUESTION

General Hogg, a resident of Alberta,
told an audience in London that Western
Canada is fast "losing its British char-
acter," and urged an active emigration of
British people to these provinces to re-
store the type. Opinion in Canada, he
thinks, is in favor of the resumption of
immigration on a "normal scale."

That depends on the kind of immigra-
tion. The new Canadian Immigration Act
provides that the government has the right to
select immigrants and make a start in some
occupation or line of business is of course
welcome here, as elsewhere. But there
is not in Canada at this time, nor will
there be for some time to come, an
opportunity for any large influx of out-
siders who must find employment in order
to live.

With single unemployed men in thou-
sands now in relief camps, and thousands
of families in cities and towns of Western
Canada have more people now than it can
provide with work and wages. Nor have
communities prior to the war had such
large numbers of people with little means
going on land on their own account.

It is not a question of whether Cana-
dians want British immigrants, or immi-
grants from any other country. It is
that for the time we cannot afford to
receive them, unless they come with considerable
capital in hand.

"TOO MANY BUFFALOS"

Once upon a time, so runs the fable, the
Indians who lived on the plains and among
the foot-hills of the Rocky Mountains, in
the province of Alberta found that there
were too many buffaloes. Everywhere the
shaggy monsters roamed, in countless
herds, and rolling fat.

Because the buffaloes were so numer-
ous, the Indians were in deep distress. A
quarter of them had nothing to eat, little
to wear, and no tepees to sleep in. The
rest fared worse than they ever had done
before, and did not know how to get skins
with which to make themselves new cloth-
ing or repair their dwellings. The country,
in fact, was suffering from a terrible de-
pression, and everybody was poor and
miserable and hopeless.

Down in what is now the State of
Montana the Sioux found themselves in
the same deplorable condition. There,
too, the buffalo had multiplied beyond
tradition. Wherefore the Sioux also were
in trouble. Their tepees were wearing out,
their clothing was in tatters, they had
not enough to eat, and didn't know what
to do about it.

Distress is the mother of conferences.
The Alberta Indians and the Montana
Indians decided to go into a huddle and see
what they could think up, if anything.
They were late for the conference, but they
went into a pow-wow. They told their
troubles, pondered relief policies, and de-
cided that the only salvation they saw
was to go home and tell their tribesmen
to kill off all the buffaloes. That would
check production, reduce the embarrassing
surplus, and give everybody a chance to
eat, dress and house himself and be happy
once more.

This fable has the earmark of im-
probability. The Indians never were stupid
enough to go hungry because there was
too much food at hand, and rugged bo-
reous clothing made it impossible for them
to sleep under the stars because hides were

available in endless numbers out of which
to build shelters.

Only the cultured Whites could ever
attain the sublime apathy that makes
possible such a thing as a wealth-depres-
sion. That is where we have landed now.
The chief cause of the trouble may be
recently in London to try and discover how
everyone can get enough to live on when
there is such an appalling surplus of every-
thing. The only concrete proposal is that
we will have to check production and re-
duce the amount of wheat in the world if
everyone is to have enough to eat.

There are not many Indians left now
in the country they once owned. Those
that remain must chuckle as they see the
white man trying to discover how he can
feed himself when there are "too many
buffaloes."

SIDE GLANCES - By George Clark

A visitor from Mars, had he happened on earth
in the past week, might have concluded from the
headlines that the most important subject to every-
one in the British Empire was the winning of the
tennis finals. Here in Canada we had nightly
bursts of shouting and cheering for the
champion. Addition to our interest in the inter-
national tournament.

The interest of millions in the hitting of a ball
across a net with rackets is I am quite prepared
to believe, of vastly greater importance than my
mind can grasp.

Re-reading Shakespeare's Henry V a few days
ago, we thought of tennis in the first act of
Henry.

As a prince, Henry had been noted for his
pious pursuit of pleasure. When he laid claim to
certain dukedoms in France, the French Dauphin
said, "I will give you the dukedom of a tennis
court. The treasure turned out to be tennis
balls. To the sainted Jack, Shakespeare makes Henry
reply in disgust to the French Dauphin.

We are glad the Dauphin is so pleasant with us.
His present and your pains we thank you for.
When we have match'd our rackets to these
balls.

We will, in France, by God's grace, play a set
shall strike his father's crown into the hazard.
To him he hath made a match with such a
wonder.

That all the courts of France will be disturbed
With chances.

He hath turned his balls to gunshots, and his
son
Shall stand sore charged for the wasteful ven-
geance
That shall fly with them: for many a thousand
Shall this his mock out of their dear
bosoms.

Tell the Dauphin
His jest will savour of but shallow wit.
When thousands weep more than he daugh
at it.

The British victory of a few days ago may have
left some sore hearts among the French players
but it made no wounds and shook no castles down.

Nowadays, American civilization has found
other kinds of rackets that do make widows and
shatter the peace of the world.

Reading Arthur Weigall's "Sappho of Lesbos"
this morning I came across the original racket.
He lived in ancient Greece in 700 B.C. His
Chicagos might seem to be the most modern
profit to themselves, and his end with profit to the
general good.

Sappho, it is hard to realize as one reads the
fragment of what she wrote, was the most modern
of destruction of the mediocrity, lived in the
same age as Buddha in India and Nehru-
nagar in Babylon. Cyprus of Persia was only com-
ing to power when her pen ceased to write
love-verse poems.

In that day Drimakos, an escaped slave, gathered
a force of other slaves fugitives, and lived for many
years in the mountains of the island of Chios.
Soldiers sent against him were
defeated. Says Weigall:

Length he sent a message to the citizens
Of Chios, promising that if they would leave him
in peace he would steal from them no more goods
than he and his men actually required, would
make and receive no grain taxes, and would
place his seal upon all barns and stores robbed
by him, so that the owners might know by whom
the theft had been committed and might be able
to demand compensation.

Drimakos, however, was not content with the
ordinary pilferings and burglaries to which they
were liable.

He promised, furthermore, to try the case
of every man who should seek sanctuary with
him, retaining those who seemed to have
just cause for their flight, and sending back
the others, saying that they should prove to have
made off without having suffered any definite
wrong.

In his own words, sold the good burglar
of Chios "protective policies," just as the rackets
of Chicago. Like them too, he was deeply
religious. On the celebration of his birthday, his followers
regularly took from the farms such animals and
fruits as were necessary for sacrifice to the gods.

Such was his case as was best fitted for the sacred
libations. Of his end, Weigall, who is indebted
to Athenaeus and Nymphodorus for the story of Drimakos,
says:

At length, when he had grown old and was
tired of life, he decided to allow his favorite fol-
lowers to claim the large reward and the free-
dom that had been offered for his head; and he
therefore voluntarily submitted to decapitation,
his severed head being taken to the city of
Chios where the price for it was duly paid. A
few days after his death, his grave in the
mountains, and there, under the name of the
Gentle Hero, his spirit was worshipped during
the centuries which followed.

It is not surprising that a man like that might inspire
emulation would be incomplete without that to his
voluntary end.

Here's another little incident, but of modern
days, that may give some readers thought:

A philosopher and historian was addressing the
students. On the subject of modern times, he
expressed depression and recent political upheavals
in Europe. He was pessimistic about the outlook, but
found some comfort for his hearers in reflecting
on conditions in the past.

You have got in a very troublesome epoch
of the world, and I don't think you will find it
improve the feeling you have, though you have
many advantages over the past.

You will find the ways of the world more
anarchical than ever, I think. As far as I have
noticed, revolution has come upon us. All kinds
of things are going to be subjected to fire, as it
were: better and hotter.

It is evident that whatever is not made
of asbestos will have to be burned in this world.
It will not stand the heat it is going to be ex-
posed to. And in saying that, it is but saying in
other words, that we are in an epoch of anarchy
anarchy, and that we are in an epoch of anarchy.

The speaker was Thomas Carlyle. The date was
April 2, 1866. They had epoch in those days, too.

It is evident that whatever is not made
of asbestos will have to be burned in this world.
It will not stand the heat it is going to be ex-
posed to. And in saying that, it is but saying in
other words, that we are in an epoch of anarchy
anarchy, and that we are in an epoch of anarchy.

The Passing Show

By J. S. Cowper

A visitor from Mars, had he happened on earth
in the past week, might have concluded from the
headlines that the most important subject to every-
one in the British Empire was the winning of the
tennis finals. Here in Canada we had nightly
bursts of shouting and cheering for the
champion. Addition to our interest in the inter-
national tournament.

The interest of millions in the hitting of a ball
across a net with rackets is I am quite prepared
to believe, of vastly greater importance than my
mind can grasp.

Re-reading Shakespeare's Henry V a few days
ago, we thought of tennis in the first act of
Henry.

As a prince, Henry had been noted for his
pious pursuit of pleasure. When he laid claim to
certain dukedoms in France, the French Dauphin
said, "I will give you the dukedom of a tennis
court. The treasure turned out to be tennis
balls. To the sainted Jack, Shakespeare makes Henry
reply in disgust to the French Dauphin.

We are glad the Dauphin is so pleasant with us.
His present and your pains we thank you for.
When we have match'd our rackets to these
balls.

We will, in France, by God's grace, play a set
shall strike his father's crown into the hazard.
To him he hath made a match with such a
wonder.

That all the courts of France will be disturbed
With chances.

He hath turned his balls to gunshots, and his
son
Shall stand sore charged for the wasteful ven-
geance
That shall fly with them: for many a thousand
Shall this his mock out of their dear
bosoms.

Tell the Dauphin
His jest will savour of but shallow wit.
When thousands weep more than he daugh
at it.

The British victory of a few days ago may have
left some sore hearts among the French players
but it made no wounds and shook no castles down.

Nowadays, American civilization has found
other kinds of rackets that do make widows and
shatter the peace of the world.

Reading Arthur Weigall's "Sappho of Lesbos"
this morning I came across the original racket.
He lived in ancient Greece in 700 B.C. His
Chicagos might seem to be the most modern
profit to themselves, and his end with profit to the
general good.

Sappho, it is hard to realize as one reads the
fragment of what she wrote, was the most modern
of destruction of the mediocrity, lived in the
same age as Buddha in India and Nehru-
nagar in Babylon. Cyprus of Persia was only com-
ing to power when her pen ceased to write
love-verse poems.

In that day Drimakos, an escaped slave, gathered
a force of other slaves fugitives, and lived for many
years in the mountains of the island of Chios.
Soldiers sent against him were
defeated. Says Weigall:

Length he sent a message to the citizens
Of Chios, promising that if they would leave him
in peace he would steal from them no more goods
than he and his men actually required, would
make and receive no grain taxes, and would
place his seal upon all barns and stores robbed
by him, so that the owners might know by whom
the theft had been committed and might be able

anarchy, and that we are in an epoch of anarchy.

Orchid Overhaul Promised

FINANCE PROBE LAYING BASE FOR PROGRESS

Estimates Six Weeks Required for Coast-to- Coast Survey

OTTAWA, Aug. 9.—Enlightened by facts and opinions presented by members of the royal commission on banking and currency, under the chairmanship of Lord Macmillan, completed the first formal meeting Tuesday. Convened by the Canadian government to make a comprehensive survey into all phases of the Dominion's banking and currency, the commission will spend the next six weeks gathering data at larger centres from coast to coast. Upon the commission's report will be based a sixth edition revision of the Canada Bank Act.

Lord Macmillan, in a prepared statement emphasized his belief that Canada had something to be very proud of in the record of her banks. And that agreement of the present commission was so refreshing to them that it was evident, however, the system would be completely overhauled.

If by our efforts we are able to contribute something toward recovery from the economic ills that beset this and other countries, replied Lord Macmillan, we will consider ourselves amply rewarded for any of the sacrifices you have made in this effort.

PLANS OUTLINED

Lord Macmillan outlined the immediate plan of the commission with respect to history and mode of procedure, and spoke of the length on the mission and place of the commission's structure, and the necessity of having a formation plan frequently before them in an easily understood manner.

Mr. McLeod, president of the Canadian Bankers Association, briefly outlined his comprehensive brief on the history of the banking legislation of Canada, and the other details of the commission's work. He said that the commission would be organized on a full-time basis, but that the commission would be organized on a part-time basis, with Mr. McLeod and other banking officials present.

GOOD FACING AT CAMROSE FAIR

CAMROSE, Aug. 9.—Manned only by an accident when Clark Mason, 23, was killed in a fall from a horse, about the face as a result of falling from a horse while riding in the Roman arena, the Camrose three day exhibition got away to a flying start Wednesday, featuring displays of handicrafts, livestock and horse racing.

Under the direction of A. D. Campbell, starter, and Bill Rush, race secretary, the day's racing card was run off. In the first race, a 2 and a half mile relay, and A. Olson won with Alex Hutchings, the driver of a slim burgin.

The most spectacular and thrilling race of the day was the Roman arena, where a horse named "Babe" was killed in a fall from a horse while riding in the Roman arena, the Camrose three day exhibition got away to a flying start Wednesday, featuring displays of handicrafts, livestock and horse racing.

FOUR POLICEMEN ARE INDICTED

TORONTO, Aug. 9.—I have come to the conclusion that I have four police officers, namely Thompson, Tull, Hagan and McCallie, should be indicted before the grand jury at the Toronto assizes for offences under section 273 of the Criminal Code. The charges are: "The police officers of the city of Toronto, in the month of June, 1933, conspired to prevent the peaceable exercise of the right of free assembly."

The premier said he had instructed the attorney general to prosecute the four officers concerned.

Child Seriously Hurt When Team Bolts In Race

NIMBEX, Aug. 9.—Seriously hurt when a team competing in the Nimbeix race bolted, a child was killed and a horse was injured. The child, a boy named "Babe," was killed in a fall from a horse while riding in the Roman arena, the Camrose three day exhibition got away to a flying start Wednesday, featuring displays of handicrafts, livestock and horse racing.

USA'S LUCKY DAY

Talk about lucky days! The United States certainly had a lucky day in the month of June, 1933, when the police officers of the city of Toronto, in the month of June, 1933, conspired to prevent the peaceable exercise of the right of free assembly.

WHAT NO INDIANS?

A story received from the Paris file mentions the fact that the

Dick Picks Ann To Play Opposite

Pretty Ann Dvorak has been chosen by Richard Barthelmess to play opposite him in "Shanghai Orchid," his forthcoming picture. Ann has just returned to Hollywood after a year in England.

GERMANY SAYS SHE WILL STOP AIR CAMPAIGN

LONDON, Aug. 9.—The British government is satisfied for the present with German assurances against further unfriendly actions toward Austria, the Austrian chargé d'affaires was told at the foreign office Tuesday afternoon when he held a conference with officials there.

Britain, France, Italy All Assured Nazis Will "Be Good"

The Italian government has informed Great Britain of German assurances that every effort will be made to put a stop to incidents such as dropping bombs, leaflets, and other propaganda over Austrian territory, Herr von Wimmer, the Austrian chargé d'affaires, was informed that under the circumstances the immediate objection desired by the British government had been satisfied.

Italy Also Gets Berlin Advice

ROME, Aug. 9.—The German government informally advised Italy Tuesday that it would take steps to prohibit the dropping of aerial propaganda over Austrian territory, on which subject the Italian government recently made friendly representations.

Paris Reports Berlin Promises

PARIS, Aug. 9.—The German government, it was said in authoritative quarters Tuesday, has privately assured France, Great Britain and Italy with regard to alleged improper activities toward Austria that Germany "didn't do it, but won't do it again."

ARIZONA BLASTS DRY LAW ACT

PHOENIX, Aug. 9.—Arizona today had blasted another liquor from the constitutional dam that holds back the flow of three of the 13th prohibition amendment. Citizens of that state voted three to one yesterday in favor of repealing the law.

HEIGHT RECORD SET BY WOMAN

PARIS, Aug. 9.—The French aero club Tuesday accepted the new woman's altitude record for light planes set by Helene Boudier, 19, who flew a biplane to a height of 5,900 meters (19,356 feet). The former record of 5,316 meters was held by Max Havelaar, an American.

Toy Pistol Robbers Flee When Slapped

MONESIE, Aug. 8.—P. T. Speck, pharmacist, thought two men who had been with a toy pistol were only fooling. "We're not fooling," one of them said. "This is a hold-up."

Ruley Organizes Board Of Trade

WILEY, Aug. 8.—At a meeting of the newly organized Board of Trade, A. Behrens was elected president, and R. C. Giesse vice-president. They together with W. M. Brown and O. Kirtland will form the board.

Fourth Month's Bridge Driver Is Killed

BASSANO, Aug. 8.—A. S. C. Cumber, manager of the Continental Hotel, was killed when he was struck by a truck while crossing a bridge. The truck driver, Jack Starn, was slightly injured.

They are good heavy weight broadcloth in a range of smart and attractive designs. The best, plain, or novelty patterns. All 36 inches wide and guaranteed to last. **\$3.95**

A NEW DEAL

This is the continuation of a sane and lively discussion of the economic situation in North America continued by a leading practical expert, why, and now, it is a daily feature for Bulletin readers. Start reading it now.

CHAPTER 2 (Continued)

AGAIN when the burden of debt is placed on a certain nation, the people have time and again freed themselves, their weapons being, chiefly in justice, and in the end, the debt is paid. As usual, he was right.

INFLATION. Inflation for 2000 years. Beginning with the Twentieth Century, the world has been in a state of inflation. The former record of 3,516 meters was held by Max Havelaar, an American.

HEALTH AND ECONOMIC TRUTHS

The stability of the Nineteenth Century fostered a dangerous condition of technological tempo: in the hands of a few, the power might be built. Excessive capital and over-production were the result. These have been the causes of the economic crisis of the Twentieth Century.

TOOK WRONG TURNING

Free from England, as a result of the industrial revolution, followed her to a distant shore. The United States was a land of opportunity, and the entrepreneur had other fish to fry. The United States was a land of opportunity, and the entrepreneur had other fish to fry.

Must Enter Camps

WINNIPEG, Aug. 8.—Physically fit people who have been in the army and navy are being required to go to work camps under a new order by the federal government. The order is a result of the war, and the federal government is required to go to work camps under a new order by the federal government.

Lindberghs Cross Ice

LONDON, Aug. 9.—A Reuters agency dispatch from Copenhagen said Colonel and Mrs. C. A. Lindbergh reached Jutland today on a flight from Alaska. The flight was a record, and the Lindberghs were welcomed by the local authorities.

A Hero, in Pat's Eyes

THE TWYMITES
Story by **HAL COCHRAN** Drawn by **GEORGE SCARBO**

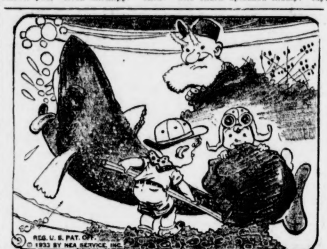

The Tynmites too stepped inside the whale's mouth when Twas opened wide, were scared, but Shrimpy told them, "You're as safe as safe can be."

The next thing that the Tinies knew, the whale swam off. "We'll follow you," cried Shrimpy. "And

then wee Windy heard a splash and loudly shouted, "Hey!"

"What was that very strange noise? Hark!" "Don't worry, lad! It's just a shark," said Shrimpy. "Look up at those rocks and you can see it there."

The shark splashed madly. My

(READ THE STORY, THEN COLOR THE PICTURE)

we'll meet you at the playground of the sea." We Dolly clung to Goldy's hand, while Duncy shouted, "This is grand." Then they were carried out of sight. It was a thrilling ride. "Gee, are they really safe and sound?" asked Scouty, as he looked around. Said Shrimpy, "That's the safest thing that they have ever been in."

Then Coppy asked, "Well, how are we to reach the playground from the seat?" "Just let me think," said Shrimpy. "I will find a dandy way."

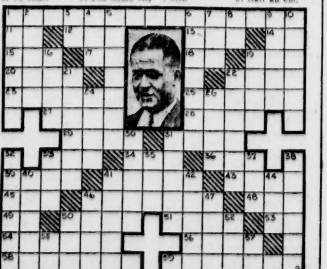

"Upon a turtle you could go, but turtles always seem so slow. Just

we ought to move the monstrous rocks apart. That really would be kind."

The Tinies pushed and panted. They would move to move the rock away. Said Scooty, "When the ship is free, 'twill be our friend, no doubt."

He's in Sports
